

What's New from Control4®

Introducing exciting new products designed to enhance your Control4® system and make your life Everyday Easy™.

Introducing the newest in affordable whole-home automation products from Control4.

Control4® home-automation products make sophisticated home control practical and affordable for every home. Enjoy simple control over your lighting, music, home theater, and temperature and security systems. Control4 integrates your existing technology and electronics into one cohesive, easy-to-use system, creating a new level of entertainment, security, comfort and convenience for you and your family.

Control4® Home Controller HC-200

The HC-200 is an affordable and versatile controller, ideal for providing in-room control and on-screen navigation for every display in your home. The HC-200's small size and flexible mounting options let you hide it behind the TVs, further reducing visual clutter in your home. You will want one of these in every room of the house!

- ZigBee (802.15.4), Ethernet, serial and IR control
- Universal mounting bracket and extremely small form factor allows flexible placement behind flat panel displays
- Audio inputs, outputs and streaming

Control4® System Remote Control SR-250

This next-generation remote features single key-press device control and context sensitive programmable buttons for customization and control—programming never before possible in a handheld remote. The 250 also features backlit buttons for easy viewing in darkened rooms, a wake-on-motion sensor and a high visibility display. Once you've tried the new 250, you'll be hooked!

- High visibility display and backlit keypad
- Replaces all other device remotes when integrated into your Control4® system
- Bi-directional wireless communication
- Wake-on-motion sensor

Control4® 7" In-wall Touch Screen

Rich color graphics and an easy-to-navigate interface make the 7" Touch Screen an ideal way to control your home-automation system. Featuring a bright, easy-to-read screen that is double the size of the in-wall touch screen, the 7" makes accessing your movies and music easier than ever.

- Dynamic color graphics featuring tabs and icons for simple touch access to intelligent technology
- Sleek design with easy-to-use navigation and 4 custom-programmable buttons
- Power over Ethernet capability
- 7" Portable coming soon!

Control4® Dock for iPod

Now you can incorporate all of your iPods into your Control4® system and enjoy your music and videos anywhere in your home. The Control4 Dock for iPod offers excellent navigation and control at an affordable price, allowing you to effectively distribute music and video throughout your home. Access a single iPod or connect all of your family's iPods at the same time simply by adding more docks.

- Sleek tabletop design makes it easy to implement in existing Control4 systems
- Charge iPods when docked
- High-quality video playback
- View cover art from any Control4 touch screen or TV interface

Effortless Entertainment,
Peace of Mind and
Comfort
and Convenience

Control4® Speakers

A perfect compliment to Control4's multi-room music products, Control4® in-ceiling and in-wall speakers offer an affordable, high-performance solution for surround sound and multi-room music. If you haven't listened to Control4's speakers, you have to hear the quality in person... because you won't believe they sound this good for this price!

- 5.25", 6.5" and 8" in-ceiling
- 6.5" and 8" in-wall
- 6.5" and 8" stereo in-ceiling
- Polymer cones
- Advanced computer optimized crossovers
- Simple rotating clamp mounting

Control4® Rhapsody Integration

Rhapsody will change the way you listen to music. For the cost of a single CD per month, you have unlimited access to almost 5 million songs. Enjoy commercial-free channels, instant playlist sharing and an easy-to-use interface that integrates seamlessly with Control4's navigation. Control4 owners say that Rhapsody is the coolest thing ever...the second you see it, you'll want it!

- Find your favorite song on your Control4® touch screen and play it instantly
- Enjoy listening to music from Rhapsody in every room of the house
- Start your day waking up to your favorite Rhapsody channel or playlist using the Control4® WakeUp agent

Control4® Version 1.7

What are you waiting for? If you haven't upgraded to 1.7, now is the time! With 1.7, you'll be able to enjoy Rhapsody, integrate the new remotes and controllers, and take advantage of a multitude of system enhancements like announcement agent and zones page that will make it even easier to control, customize and enjoy your Control4® system.
